May 10, 2022

To: Board of Education of SD59

From: Jan Proulx, Director of Instruction

Agenda Item: Revised 2022-23 School Calendar

In March 2022, the Province of British Columbia advised public sector employers, including K-12 public schools, that September 30, 2022 should again be observed as a statutory day for remembrance for those employees who are normally entitled to federal and provincial statutory days. The Province will continue to engage with Indigenous Peoples on how best to observe the National Day for Truth and Reconciliation in the future.

With this announcement, School District 59 revised the 2022-2023 Calendar to observe September 30th as a statutory day for remembrance. This change impacts the number of instructional days and the number of instructional minutes per day.

Additionally, in our previous calendar, the November Non-Instructional Day (NID) was identified on two different dates. This calendar confirms that this NID will take place on Friday, November 25, 2022.

As required by the school calendar regulation, the proposed amended calendar has been circulated to the public for input for 30 days. No feedback was received.

I recommend the 2022-23 School Calendar be adopted as amended.

Superintendent  
School District No. SD# 59 (Peace River South)

**Email: [cfennell@sd59.bc.ca](mailto:cfennell@sd59.bc.ca)**

Dear Christy:

**RE: Framework for Enhancing Student Learning Peer Review Report**

Please let me express my thanks to you and your team for all the work on your district strategic plan and Enhancing Student Learning Report. It is encouraging to see, for your local community and others, the deep focus you are bringing to help all children succeed in life.

As you know, the Ministry of Education and Child Care is endeavouring to implement fully the Framework for Enhancing Student Learning, premised on deep collaboration with the school districts and their teams. The spirit and intent of the Framework is collective continuous improvement to align our efforts across the system to improve outcomes for all students in British Columbia, with a particular focus on addressing persistent equity gaps. Importantly, the intent is a fundamental shift from previous approaches to system accountability—and that used in most other jurisdictions—based on compliance and a narrow focus on student achievement, to one that is based on the whole human being (the “Educated Citizen”) and is co-developed with education partners and rightsholders.

In this light, and guided by our education partners, we initiated for the first time in 2021/22 a process to bring together multiple perspectives to review districts’ continuous improvement plans and strategic plans and provide constructive feedback for districts’ consideration. In collaboration with the BCSTA, BCSSA, BCASBO, BCPVPA, FNESC and MNBC, the Ministry worked with an experienced facilitator, Sandra Herbst, over several months to co-construct quality indicators, and to design and implement a process for reviewing all 60 school district Enhancing Student Learning Reports. This approach included providing concise, constructive feedback to each district to inform continuous improvement planning.

Using the co-constructed quality descriptive statements for effective strategic and continuous improvement planning as a guide, teams practiced providing descriptive and objective feedback on sample documents in relation to three focus areas:

.../2

- School, district, and provincial data;
- Strategic engagement; and
- Alignment of planning efforts with goals.

For each focus area, teams utilized a group protocol to arrive at district **strengths** with supporting evidence, **considerations** for the district with supporting evidence, and **mediative questions** (open-ended and designed to support reflection).

Several small teams comprised of representatives from all the partner and rightsholder associations participated in the peer review during the week of February 7-11, 2022. This was done to ensure multiple perspectives and points of view were heard and had the opportunity to provide input for a district's consideration. Over four days, these teams generated feedback for sharing with all 60 school districts, using the established protocol and capturing the information for each district on a webform. That information formed the basis for each district report.

The Ministry is pleased to share this report with you to provide feedback in relation to the three previously mentioned focus areas associated with effective continuous improvement planning. Please allow me to emphasize that the intent of this feedback is to support continuous improvement, and that it is intended to build upon what is already recognized as a deep commitment to improving student outcomes in your school district.

Through this work, we continue to collectively build capacity within the education system and foster robust strategic and continuous improvement planning practices to enhance educational outcomes for all students. The work we are undertaking together, as one system, is foundational to our shared purpose of developing educated citizens and to addressing persistent inequities in opportunities and outcomes for Indigenous students, students with disabilities/diverse abilities and children and youth in care.

I look forward to continuing to refine our continuous improvement review program based on your input, and to improving our shared efficacy around effective planning for the benefit of all students in BC.

Sincerely,

Christina Zacharuk  
Deputy Minister

**SCHOOL DISTRICT NO. 59 (PEACE RIVER SOUTH)**

**BOARD CHAIRPERSON:** Chad Anderson

**SUPERINTENDENT:** Christy Fennell

The information below was gathered through a peer review process and is intended to provide feedback to your district **in relation to three key areas of continuous improvement planning**. This feedback affirms the good work that is happening in your district as well as outlines some specific considerations and questions for your reflection, to help inform your work to support successful outcomes and improve equity of outcomes for all students.

**FOCUS AREA 1**

Reviewed, analyzed, and interpreted classroom, school, district, and provincial data (including the Framework required data set) to illuminate emerging areas of need and inequities of student learning outcomes and to determine progress being made.

**DISTRICT STRENGTH:** We noticed a variety of data sets are utilized to inform explicit strategies that address inequities and guide progress within the district.

**SUPPORTING EVIDENCE:** Graduation coaches and a coach-mentorship program for teachers are examples of strategies implemented in response to the analysis of data sets for graduation and careers.

**CONSIDERATION:** An area for further consideration is the collecting and analyzing of qualitative evidence from specific populations (i.e., First Nations and students with diverse abilities), as well as classroom-level data, to provide administrators and teachers with a deeper understanding of student learning needs.

**SUPPORTING EVIDENCE:** The Enhancing Student Learning Report and Strategic Plan refer to a variety of quantitative data sets. Qualitative evidence of student learning (i.e.,

artifacts, observations, and stories) are not included as a way of informing the current state of student learning.

**MEDIATIVE QUESTION:** *What might some strategies be to improve the sense of belonging felt by Indigenous students and students with diverse abilities that focus on the wider school community (not just those students who do not feel welcome), and how these be communicated to school administrators, classroom teachers, and the wider school community?*

**FOCUS AREA 2**

Activated an effective strategic engagement process, with a priority on engaging Indigenous peoples and communities, First Nation communities, and other equity seeking groups.

**DISTRICT STRENGTH:** There is an Indigenous Enhancement Agreement (IEA) (current is 2021-2026) that articulates goals, indicators, and strategies, and is linked to district priorities. As well, the Enhancing Student Learning Report provides detail on the performance of equity seeking groups.

**SUPPORTING EVIDENCE:** The Strategic Plan links the 2019/20 engagement process to identified areas of strength and areas of focus for 2020-2024.

**CONSIDERATION:** The district might consider including a description of the "extensive consultation process" to determine priorities. What was this process and who was involved? What strategies could be developed to ensure that all rights holders and other stakeholders are engaged?

**SUPPORTING EVIDENCE:** There are fewer community representatives represented in the engagement process that might be expected. For example, there is not much information about the engagement of other equity seeking groups, and the IEA Advisory Council relies on agency reps in Chetwynd (no community reps in Dawson Creek are listed).

**MEDIATIVE QUESTION:** *How could the district be more explicit when describing the engagement process, to articulate the range of participants so that they can see themselves*

*in the plan (i.e., stating the frequency of engagement so that all parties know they are part of the whole process from input to evaluation)?*

### **FOCUS AREA 3**

Adjusted their District Operational Plans to align with their student learning goal(s) as articulated within the Board's Strategic Plan.

**DISTRICT STRENGTH:** We noticed that the Operational Plan directly aligns with the Strategic Plan, and clearly articulates the stated priorities and goals as they relate to enhancing student learning.

**SUPPORTING EVIDENCE:** Priorities and goals are carried over from the Strategic Plan to the Operational Plan.

**CONSIDERATION:** An area for further consideration may be to provide a description of the local context (i.e., district demographics, facilities, resources) at the front end, to set the frame for the Enhancing Student Learning Report.

**SUPPORTING EVIDENCE:** Context description is not provided in the Enhancing Student Learning Report.

**MEDIATIVE QUESTION:** *How might the district better integrate elements of the Operational Plan into the Enhancing Student Learning Report to show a correlation between findings and actions/next steps?*

We would like to acknowledge and thank you for your diligence in creating your district's inaugural Enhancing Student Learning Report. As you know, this is our first year of full implementation of the Framework for Enhancing Student Learning, and our goal throughout this process has been to create opportunities for reciprocal peer-based learning, where we collectively build capacity within the education system and continuously improve strategic and continuous improvement planning processes to enable better outcomes for all students in BC.

## School District No.59 (Peace River South)

---

May 13, 2022

Dear Board of Education,

Chetwynd Secondary School is working with Wayne Lariviere on a mural for the front entrance of the school. Mr. Lariviere is currently working as an Artist in Residence in School District 59. The painted background will cover the whole east wall across from the office which is roughly 20 feet by 7feet, and will focus on a Chetwynd landscape.

Two wood figures will be secured over the top of the landscape: a bear one side and a tree on the other. Both of these figures will be cut out of 4 x 8 sheets of wood. The woodshop has volunteered to cut the wood figures. As well, the circle tiles designed and created on last year's National Indigenous Day celebration will be used to design the tree and the bear, with room to add more as a legacy project each June.

While there is no visual example at the moment, I have included some pictures of work that has been done by Mr. Lariviere last week in the district. Chetwynd Secondary School has my approval to proceed with this project.

Sincerely,

Christy Fennell  
Indigenous Education Department

### **RE: April 2022 Financial Reports**

Following are explanations of major variances for the April 30, 2022 Financial Reports.

#### **REVENUES:**

The Base Operating Grant is showing a favourable variance of \$65,857 due to the February enrollment count funding of \$172,886. The budget was based on an estimated May 1701 count of 54.0 FTE amounting to \$343,440. If that target isn't met the additional revenue of \$172,886 from the February count will be offset.

The interest income is showing a large amount earned in April. Due to the large balance sitting in the capital Ministry of Ed Restricted Funds the district accrued a portion of the interest earned each month to that account. Given we have spent the fund this year on the Pouce Coupe addition the interest accrued to that account for the year was reversed to the operating interest income account.

#### **DISTRICT EXPENSES:**

1. **District Programs Other** – The majority of the favourable \$676,000 variance breakdown is as follows.
  - a. Indigenous Education - \$264,000
  - b. Resource Centre - \$46,500
  - c. Special Projects - \$42,000
  - d. CEF Operating Fund - \$130,000
  - e. Numeracy \$37,000
  - f. Literacy \$26,000
  - g. Speech & Language \$27,750

The majority of these variances are due to unfilled vacancies, all positions remain posted with the goal to hire. It is expected the variance within the CEF fund will decrease due to recent staffing increases to meet contract language in regard to ratio positions.

## School District No.59 (Peace River South)

---

2. Most of the **Special Purpose** variance is from the Annual Facilities Grant (\$194,000), French Language (\$42,000), CEF remedies (\$84,000), (Strong Start (\$30,000) and the Learning Improvement Fund (\$19,000).

### SCHOOL EXPENSES:

The variance for support staff trend that showed a large increase in March has decreased to a level closer to what was reported in the February financial reports.

As at April 30, 2022 the school surpluses totalled \$953,000, this is compared to \$852,000 as at April 30, 2021 and \$472,000 as at April 30, 2020. The trend the last two years is not surprising given the increased level of vacancies the district has experienced the last two years. School carry-forward surpluses will continue to be restricted to 2.5-3% of budget.

# Budget Monitoring and Reporting

# Budget Monitoring and Reporting – Policy 5005

The Board of Education has a responsibility for the effective use of funds received from the Ministry of Education and other sources. The Board of Education has a duty to govern the district in a fiscally responsible manner, while supporting the priorities and strategies of its Strategic Plan. The School Act requires the Board to develop an annual operating budget containing the content specified by the Ministry of Education.

The purpose of Policy 5005 is to ensure compliance with the Ministry of Education's K-12 Public Education Financial Planning and Reporting Policy which directs Boards of Education to develop, implement and annually provide to the Ministry multi-year financial plans that identify how funding and resources will support board strategic plans, operational needs of school districts and improved educational outcomes for students.

The Board will be provided with supporting materials, budget highlights and assumptions, implementation strategies and financial and business risks to assist in its understanding of the district's financial health prior to decision making. The budget will support the district's strategic priorities and operational plans.

# Budget Monitoring and Reporting

## Policy 5005 – Public Consultation

Budget consultation and discussion will take place in a planned, collaborative and transparent manner. The local community and education-partner groups, including local First Nations and Metis Nation BC, will be able to provide input into the development of board multi-year financial plans through meetings held during the budget development stage. Every year the board will post information on its main website how and when the groups mentioned above can provide feedback and input into the development of multi-year financial plans.

The board will also post information on its website about how the groups above will be informed of the boards progress towards aligning funding and resources with the Strategic Plan, operational needs of the district and enhanced student educational outcomes.

# Budget Monitoring and Reporting – Regulation 5005

*VOLUNTEERS IN SCHOOLS*

Adopted:

Last Revised:

Description:

The Board believes that the education of students is an undertaking that should be shared among its employees, parents and members of the community. The active involvement of parents in a volunteer role has the potential to provide considerable benefit to the intellectual and social development of students. In addition, the participation of volunteers increases communication and positive relationships between the school, parents and the community. Consequently, the Board supports and encourages the use of volunteers to support the work of employees.

The Board believes that the use of volunteers supports parental involvement, complements the skill and expertise of employees, assists schools in providing enriching additional learning experiences and extracurricular programs, and strengthens lines of communication among the school, home and community.

Involvement of volunteers is encouraged in activities for which the volunteer is qualified, which benefit the school, and which do not interfere with employees performing their regular duties or result in the displacement of an employee. The delivery of an effective volunteer program requires a harmonious relationship between school staff and volunteers.

While encouraging the community context of schooling, the Board expects its schools to be safe, secure, and caring environments for students. Therefore, appropriate safeguards respecting the selection, role, and supervision of volunteers must support the use of volunteers. The School Board, through its employees, must maintain control of school programs and school-sponsored activities.

*FINANCIAL PLANNING AND REPORTING*

Board Approved: May 30, 2018

Description:

The Board of Education recognizes its responsibility for the effective use of funds received from the Ministry of Education and other sources. The Board of Education has a duty to govern the district in a fiscally responsible manner, while supporting the priorities and strategies of its Strategic Plan. The School Act requires the Board to develop an annual operating budget, in the form and containing the content specified by the Ministry of Education.

The purpose of this policy is to ensure compliance with the Ministry of Education's K-12 Public Education Financial Planning and Reporting Policy which directs Boards of Education to develop, implement and annually provide to the Ministry multi-year financial plans that identify how funding and resources will support board strategic plans, operational needs of school districts and improved educational outcomes for students.

The Board authorizes the Superintendent and the Secretary Treasurer to develop and monitor the annual budget, and for the overall management of the educational and operational programs that are supported by the annual budget. The Secretary Treasurer is specifically responsible for the management of the budget and all financial reporting processes.

The Board will be provided with supporting materials, budget highlights and assumptions, implementation strategies and financial and business risks to assist in its understanding of the district's financial health prior to decision making. The budget will support the district's strategic priorities and operational plans.

The Board is responsible for monitoring the district's financial position at regular intervals throughout the year. The Board will ensure it is meeting the legislated and government policy-based financial responsibilities. The Board will also ensure that budgetary and financial information is available, comparable and financial statements audited.

Budget consultation and discussion will take place in a planned, collaborative and transparent manner. The local community and education-partner groups, including local First Nations and Metis Nation BC, will be able to provide input into the development of board multi-year financial plans through meetings held during the budget development stage. Every year the board will post information on its main website how and when the groups mentioned above can provide feedback and input into the development of multi-year financial plans.

The board will also post information on its website about how the groups above will be informed of the boards progress towards aligning funding and resources with the Strategic Plan, operational needs of the district and enhanced student educational outcomes.

*SURPLUS*

Board Approved: May 30, 2018

Description:

The purpose of this Policy is to provide the board with guideline and rules to ensure accountable and transparent financial planning, and develop procedures that guide the accumulation, spending and reporting of operating surplus funds. This policy aligns with and ensures compliance with the Ministry of Education (Ministry) Accumulated Operating Surplus Policy (AOS) and Financial Planning and Reporting Policy (FPAR).

An operating surplus is achieved by spending less than the revenue the school districts receives in a given year; surpluses can accumulate year over year. The Board of Education is required by the School Act to prepare a balanced annual budget. Estimated spending in the annual budget must not exceed estimated revenue plus accumulated operating surplus. Operating surplus, with consistent rules and guidelines in place, enables the Board of Education to engage in long-term planning, mitigate financial risk and support consistent service to students.

The School District's financial plans and budgets, including the use of operating surplus, should clearly identify how they support strategic plans and other operational priorities of the school district including improving student educational outcomes. The Board of Education will review a summary of the school district surplus position during the Preliminary and Amended Annual Budget processes and when approving the Financial Statements. To increase transparency, any surplus appropriations or interfund transfers will require board approval. Capital assets purchased for departmental operating plans from approved budget expenditures do not require subsequent board approval.

When developing local budgets (including the use of operating surplus funds) the board will ensure that it consults and engages their local communities, education partner groups, local First Nations and Métis Nation BC by providing public information on the entry page of its website about:

- where, when and how long the community partners above will have the opportunity to provide input, feedback and ask questions on the board's annual budget and board's accumulation, reporting and planned use of operating surplus;
- how the feedback will be used;
- any specific opportunities for the local community partners to provide feedback on the matter; and
- how the board will report out to the local community partners on its progress towards meeting its strategic plans (including surplus funds) ie. post this information on its website.

The board will use the following categories to manage accumulated operating surplus:

### **Internally Restricted Operating Surplus**

Restrictions can be made for items that are identified by the board, have defined timelines, are directly related to a board's goal outlined in their strategic, operational and financial plans, or that meet the specific needs of the school district.

There are three categories under which the Board may designate funds as internally restricted surplus.

1. Restricted due to the nature of constraints on the funds
2. Restricted for anticipated unusual expenses identified by the board
3. Restricted for operations spanning multiple school years (not beyond the next two fiscal years)

### **Unrestricted Operating Surplus**

To support effective planning, including risk mitigation strategies, the board will attempt to maintain a sufficient unrestricted operating surplus balance. This will mitigate financial risks related to unforeseen events and fluctuations in budgetary estimates.

Excess funds above the desired target may be considered for allocation through the subsequent budget process.

When use of the contingency reserve reduces the balance below what is determined to be sufficient, the Board of Education will adopt strategies for replenishing the contingency reserve within an appropriate time frame.

### **Restricted for Future Capital Cost Sharing**

The Treasury Board requires the Ministry of Education to review district surplus funds and determine funds that are available to contribute towards major capital projects. When a project has been approved for concept plan or business case development, the Board may restrict operating surplus funds for that project.

### **Local Capital**

Local Capital includes the board's portion of any proceeds from the disposition of capital assets, transfers from operating funds, and interest earned on Local Capital funds.

Transfers from operating funds to Local Capital will be for specific initiatives related to the Board's strategic plan or other operational needs of the district. Examples include vehicle replacement, computer system upgrades, and renovation or replacement of administrative and operational buildings.

Reports will be accurate, understandable and presented in a timely manner as follows:

**Quarterly Financial Reports:**

- Actual results will be compared with trended budget amounts;
- Significant variances between the trended budget and actuals, including all significant revenues and expenses, will be clarified;
- Status reports for significant capital projects will outline progress on spending relative to budget, achievement of key milestones and risks related to delivering the project on time, on-budget and to identified project specifications;
- Changes to capital allocations/asset, unspent capital balances and accumulated operating surplus/deficit;
- Annual updates will be provided to the Board on local and capital reserves.

Implementation of these processes and any future direction is at the discretion of the Board (with appropriate public consultation and engagement) and reflects appropriate latitude for administration to implement based on the district's unique circumstances, risk profile and strategic priorities.

*ACCUMULATED OPERATING SURPLUS*

Last Revised: March 2022

---

Description:

The Board will attempt to maintain an unrestricted operating fund balance of five percent of annual operating expenses. Excess funds above the desired target may be considered for allocation through the budget process.

When use of the contingency reserve reduces the balance below what is determined to be sufficient, the Board of Education will adopt strategies for replenishing the contingency reserve within an appropriate time frame.

Accumulated operating surplus should not be transferred to local capital without supporting detail of what capital projects these local capital funds will be spent on. This will normally occur during the budget process, or through approval by Board motion.

Operating surplus funds may be internally restricted. Amounts should be spent within three years to be considered to be internally restricted.

The Board will provide the Ministry with an annual report on their budget allocation decisions (including operating surplus and Local Capital) demonstrating that approved allocations support board strategic objectives, including improving student educational outcomes. The board will provide information in the Notes to the Financial Statements identifying internally restricted surplus funds, as well as, details of the restrictions placed on these funds. The Board can provide additional narrative type information explaining how surplus funds were accumulated and how surplus funds will be used through the Financial Statement Discussion and Analysis.

Under section 156(12) of the School Act, a board must not incur a deficit of any kind unless the board has the approval of the minister or meets criteria prescribed by order of the minister.
